MR Lookup

A Reference Tool for Linking

Authors can access the MR Database to verify and create references that can link to reviews and original sources. Enter basic reference data on the form at www.ams.org/mrlookup. *Mathematical Reviews* (MR) will deliver electronic publication-ready references with live links.

Use MR Lookup to:

Create References *and* **Link to Reviews in MathSciNet** *and* **Link to Original Articles**

MathSciNet has an especially powerful system of internal links between reviews and provides direct links to the papers themselves if they are available on line. The reviews are classified by subject and are searchable in multiple ways. Thus, it provides an unparalleled method of browsing the literature for serious content (along with accurate bibliographic data).

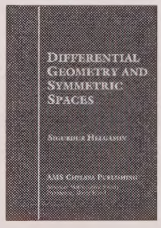
The Fermat Diary



C. J. Mozzochi

This eyewitness account and wonderful collection of photographs capture the marvel and unfolding drama of this great mathematical and human story.

Differential Geometry and Symmetric Spaces

Sigurdur Helgason

Sigurdur Helgason's Differential Geometry and Symmetric Spaces was quickly recognized as a remarkable and important book. Several generations of mathematicians relied on it for its clarity and careful attention to detail. This text is rightly called a classic
